

ICATT

APPRENTICESHIP PROGRAM

Answers to the Top 5 Questions for Future ICATT Apprentices

How does the program work?

With the ICATT Apprenticeship Program, you earn while you learn. While earning a salary and working toward industry-specific certifications and an associate degree, you will receive intensive year-round block-style training, where you will alternate time between school and the company with more time at the company as training progresses.

Is an ICATT Apprenticeship as valuable as a degree from a four-year college?

Four-year college is not the only path to a stable career with upward mobility. ICATT Apprentices earn a debt-free associate degree and gain skills for an in-demand field. Most ICATT Network Companies even offer a job guarantee upon completing the ICATT Apprenticeship Program.

What are the requirements?

Specific requirements can vary by company, but most require that applicants have a high school diploma or GED as well as eligibility to work in the United States. Community College placement test scores must also fall within an acceptable range. The ICATT team is available to answer questions and assist you!

Is there support provided to ensure ICATT Apprentices complete the program?

The ICATT team is here to support you and we're invested in your success. 85% of ICATT Apprentices complete the program successfully.

Are ICATT Apprentices locked into an hourly wage and position?

As your skills increase, so do your wages.

321 N Clark St., Suite 1425
Chicago, IL 60654

BENEFITS:

- Gain skills for an in-demand profession
- Earn a debt-free associate degree
- Receive an industry-aligned education combined with hands-on training
- Obtain national and international credentials
- Increase your salary and advance your career

CURRENT TRAINING PROGRAMS:

Advanced Manufacturing Technicians

Advanced Manufacturing Technicians manufacture, maintain and monitor high-tech mechanical systems, including advanced skills in metalworking combined with knowledge of fluid power and circuits.

Mechatronics Technician

Mechatronics Technicians create, troubleshoot and maintain electromechanical systems, including metalworking, pneumatic and hydraulic systems and a strong focus on electronics and programmable logic controllers.

CNC Machining

CNC Machining Professionals program and operate computer-controlled metalworking machines to produce precision components through processes such as milling, turning, drilling or grinding.

International Logistics & Freight Forwarding

International Logistics Specialists organize the sending, handling, and storage of goods. Additionally, they sell transportation and logistics services.

Illinois-related activities are part of a project or programs funded in whole or in part with Federal money through a grant, AP-27959-15-60-A-17, received from the US Department of Labor's Employment and Training Administration in the amount of \$3,995,000. The expenditure for these program materials accounts for (1) <1 percent of the total grant financed with Federal money, (2) the dollar amount of Federal grant funds is \$3,995,000; and (3) Federal funds represent 12 percent of the total costs of the project or program, with the balance financed by non U.S.-governmental sources.
