The benefits of apprenticeship are substantial for both job seekers and job creators. These “earn and learn” models enable employers to fill open jobs, improve productivity and profitability, and reduce turnover while providing the American workforce with pathways to start new careers and acquire the skills needed for good jobs.

The ICATT Apprenticeship Program is a workforce development strategy – a sustainable solution that builds a loyal workforce, provides a pipeline of talent, and ensures that standards of excellence are met. The program provides a salary, a debt-free associate degree, and industry specific certifications. Comprehensive testing after year 2 and 3 ensures ICATT Network Companies that their apprentices have acquired the skills needed to become well-rounded, flexible experts in their field.

Please let me know if you have any questions about the event or Buhler’s apprenticeship initiative. If you’d like more details about National Apprenticeship Week, visit the NAW website for information including history, state apprenticeship contacts, and the NAW events locator map.

We look forward to hearing from you and hope you can attend.

Best, Haley Severson
